Meena International manufacture special PAUT & ToFD Procedure Validation Specimens for various thickness ranging up to 120 mm thickness for various clients.

The flaws are embedded with very high accuracy with respect to length, height (width) & depth. No unwanted indications in any other locations.

Full satisfaction guaranteed to customers, certifying authorities & end users.

**Other Terms & Conditions:**

For all local sales Taxes of 14.5% will be extra (or as) applicable at the time of sale.

The samples will be manufactured with embedded defects as per PCN-CP9 Requirements. Any major changes in the dimensions would require a re-confirmation from MI on the validity of the rates quoted.
